Subject: Arimol Group, Inc. and Meadowbrook Cedar, Inc. Properties Wetlands Delineation Work Scheduled for Monday, August 26, 2012
Importance: High

Hello Everyone:

We are planning to begin the wetland delineation ground work at the Arimol Group, Inc. and Meadowbrook Cedar, Inc. properties on Monday, August 26, 2013. Dr. Edith Read, Bill Moller (the property owner), an equipment operator, and myself plan on beginning work on site around 0800. I apologize for getting this announcement out this morning rather than last night, but we had a few logistical details to resolve and we are now ready to go. We plan on completing all of the digging required for the test pits and related soil work by the end of the day on Monday. You are all welcome to visit the site on Monday and should you have any questions or require further information, please do not hesitate to contact me.

Thank you,

Bruce
